Aion is only officially supported for Windows based computers. If there are ever plans to bring support to the Mac platform, it will be announced on the official Aion website.

NCSOFT staff is aware of attempts to get Aion working on the Mac platform, such as through BootCamp. The file size of the entire game is 30 GB (installation requires 60 GB of free space). You can choose between two divine factions, the Asmodians or the Elysos and save your people from an ancient evil that threatens to destroy everything in its path.
